### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William B. Miller on September 27, 2004.

The application has been amended as follows:

#### **IN THE SPECIFICATION:**

In line 1 of the abstract, "discharge means" has been changed -- discharge opening --.

In line 2 of the abstract, "means of pairs" has been change to -- a pair --.

The title has been changed to -- Bulk Bag Having a Pair of Loops to Secure the Discharge Opening in a Closed Position --.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach nor fairly suggest a bag as set forth in the independent claims wherein a plurality of first loops attached to a lower edge of a flap for covering the bottom of the bag, for each of said plurality of first loops, a corresponding length of fabric attached securely on at least one location to a side of the bag above the designated edge of the bottom portion, and which includes means for releasably attaching a first portion of the length of fabric to a second portion of the e length of fabric to thereby form a corresponding second loop interlockable with a first loop, for each of said corresponding second loops, a strap of fabric positioned above the second loop and which has a first, upper end which is securely attached to the bag side wall

and a second, lower end which is free from the bag side wall; and means for releasably fastening the second, lower end of the strap to a corresponding second loop, i.e., a looped portion releasably securable into a loop with a corresponding fabric strip attached to the bag wall and releasably securable to the closed loop.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Various prior art closures teaching features similar to those disclosed and/or claimed are cited for their disclosures.

4. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

5. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. \_\_\_\_\_ is being facsimiled to The U.S. Patent and Trademark Office via fax number (703) 872-9306 on the date shown below:
